

Early Human Populations in the New World: A Biased Perspective at the Missouri History Museum in Forest Park

Tuesday **MARCH 9**

Lee Auditorium

7:30 p.m.

FREE

ARCHAEOLOGY PROGRAM

Co-sponsored by the Archaeological Institute of America

Painting depicting Christopher Columbus taking possession of the New World. wikipedia.org.

Early Human Populations in the New World A Biased Perspective

J.M. Adovasio, Ph.D., has spent the last 30 years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? Director of the Mercyhurst Archaeological Institute, Adovasio offers his perspective on the initial occupation of the New World.
